和12月檢測有什麼分別？

- 需要**48**小時前 檢測
- 計算直達香港航班時間
 - 例如 London – dubai – hong kong
 - 2/apr 14:00 London to dubai
 - 3/apr – 2:50 am dubai to hk (dubai time)
 - 所以檢測時間 – 2:50am dubai time in gmt
 - = 2/apr 22:50 = 48小時, 31/mar 22:50 開始
- 不可以用lamp test (和4月開始一樣)
- 轉機-一定要 iso 15189 (以前 cqc/ukas 可以過關)

Your coronavirus (COVID-19) vaccination status

You recently contacted 119 (COVID-19 vaccination status service) to request a letter confirming that you have received your COVID-19 vaccinations.

Unfortunately we were unable to generate a letter on this occasion. A letter can only be generated when your vaccination record contains all of the required information to confirm that you have received **two doses** of any UK approved COVID-19 vaccine.

What you should do now

If you are planning to travel outside of the UK and need to have evidence of your vaccination course, please contact your GP practice with your vaccination details. It will help them if you can also provide this reference: **3008 Only 1 vaccination recorded.**

Your GP practice will then liaise with the vaccination programme and local vaccination service(s) to understand what information may be preventing your letter from being generated.

Getting your vaccination status confirmation

Once your record has been updated, there are two ways you can choose to demonstrate your vaccination status:
