實例

- ▶ Teachers called me a hardworking student and always praise that I concentrate on the lessons, never sleep in classes and submit the homework on time. In my opinion, it is my duty to be responsible for my own studies, so I always try my best.
- ▶ My favourite subject is Chemistry and I think it is an interesting subject. From which I understand more structures of the compound and interesting reactions in my daily life. Chemistry is about the molecules all around us. It is about the matter, specifically how matter changes. Doing a degree in Chemistry will allow me to learn about why the things around us behave the way they do. This wonderful subject attracts me and it makes me participating in a few science competitions organised by the school. The thing that makes me love chemistry was the extracurricular science course in my F3 period; there were many experiments and it taught me how the instrument and indicators are used in the laboratory. The unforgettable memory in this course was the flame test, since I did not clean the platinum wire well, the flame becomes colorful. Although I failed the experiment, I was excited from the experiment and chemistry brought to me.

Since primary school, I participated in robot competitions in Macau nationally and won some awards in these competitions. Also, I love music and also keep my passion in it, and I have been playing the piano since I was young. In 2016, I took the Grade 6 piano examinations passed and Grade 5 music theory passed with merit.

Furthermore, I am an open-water diver and I finished the courses and the exams of PADI with certification.

At this moment, I am studying for the UK GCE-A-level of four subjects, namely Mathematics, Chemistry, Physics and Biology on top of my Macau curriculum. As one of the members of the robot team, I will be preparing for the Macau Robot Competition in May.

Through the education of the university in the UK, I expect I can become more independent, mature, and professional while learning the skills of doing the experience in the laboratory.

After getting my undergraduate degree, I would like to further pursue by studying a postgraduate degree, either in the UK or back in Asia. Whatever my future will be, I am convinced that these four years' hard work will arm me with solid specialised knowledge while I can also acquire excellent English skills. English is one of the international languages and Macao needs

申請之後

- ▶ 12月-3月 收offer
- ▶ 3-5月決定first and second choice, 如果選擇first choice, 記得也要同時申請住宿, first choice 一般以最希望入讀大學作為first choice, 第二是以prediction grade 低少少而希望入讀的大學來決定
- ▶ 善用second choice, 不要依靠clearing 後備
- ▶ 不可以更改大學選擇, 若要更改 (就算收過offer) 只可以透過clearing 處理

Latest trend

- ▶ First Choice = unconditional
- ▶ Offer with scholarship
- ▶ Imperial College London – Feb interview + results

8月放榜

- ▶ 8月第二個星期四放榜
- ▶ 成績將會由學校發報，大學排位透過ucas 發報
- ▶ 如果達到offer, 自動收錄first choice 大學
- ▶ 如果沒有達到offer，而ucas 沒有通知，建議打電話和大學直接聯絡，學校也會提供幫助，例如幫忙打電話給大學查詢情況
- ▶ First choice 取率grade：如相差1個grade 一般都會取錄，如果miss 2個grade，將會由second choice 取錄（如達到offer成績）
 - ▶ 例如：Birmingham Business Management – ABB
 - ▶ ABB / BBB / BBC 大約結果
- ▶ 如果second choice 也拒絕，就會進入clearing 程序

Clearing

- ▶ 英國大學機制，在8月放榜後把所有學位透過clearing 來取錄學生
- ▶ 只有沒有任何offer (不可以同時hold second choice) 才可以進入clearing
- ▶ 一般clearing 的取錄資格比較低，但競爭激烈
- ▶ 大學空位資料由7月開始網上提供，正式有放榜日英國時間3點開始
- ▶ 需要每一間打電話問可不可以收，如果有位和達到入學成績，將會電話通知
- ▶ 決定選讀大學後，把資料登記在ucas, 大學會confirm offer 就變成正式offer

Clearing 建議

- ▶ 如果覺得自己成績有機會second choice 也不可以達到，最好提前看看clearing 可以提供的學位
- ▶ 這個階段任何科目都可以選讀（不需要和ucas 一樣）
- ▶ 一定要親自打電話（不可以用website，不可以父母代打，全部要申請人負責）
- ▶ 最近很多仲介不願意幫已經申請ucas 的學生處理clearing 申請
- ▶ 只可以收一次clearing choice
- ▶ 建議打電話給不同大學查詢學位情況，ask for a verbal offer 之後最後才決定去哪所大學

簽證和入學安排

- ▶ 需要confirm offer，交了學費後才可以收到cas
- ▶ 最快大學會8月底提供cas
- ▶ 學生需要申請簽證（大學只可以提供基本協助）
- ▶ 需要confirm 住宿，留意合約期限, 大部分倫敦和其他大城市合約是1年（包括暑假）
- ▶ 如果大學要求學生參加英文補課，留意開學時間
- ▶ 一般大學包括新生週：9月中到10月中
